ORDER

On September 1, 2015, Knott County Water and Sewer District (“Knott District”) and Troublesome Creek Environmental Authority, Inc. (“Troublesome Creek”) (collectively “Joint Applicants”) filed a joint application requesting that the Commission transfer ownership and control of Troublesome Creek’s Ball Creek Wastewater Treatment Plant to Knott District. KRS 278.020(6) requires the Commission to consider and rule upon the application within 60 days unless it finds that good cause exists to continue the application. The statutory 60-day date for rendering a decision in this case is October 31, 2015.

Having reviewed the existing record, the Commission finds this record does not make a complete and thorough presentation of the proposed transaction and that additional information is required. The Joint Applicants’ response to the Commission Staff’s Initial Request for Information is due 14 days from the date of the request, October 1, 2015. This does not allow the Commission adequate time to review the responses before it is required to render its decision on October 31, 2015. Accordingly, the Commission finds that good cause exists to continue the application generally

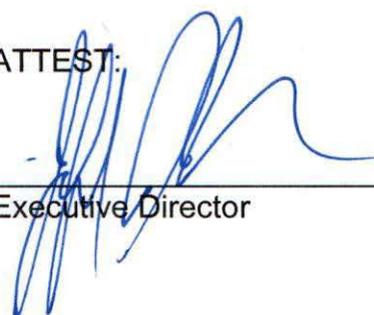

beyond the statutory period of 60 days, and hereby extends the period to 120 days, making the decision due date December 30, 2015.

IT IS THEREFORE ORDERED that the period for reviewing the joint application is extended from 60 to 120 days, with a decision to be rendered on or before December 30, 2015.
